**Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of Partial Amendment No. 1 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Partial Amendment No. 1, by The Options Clearing Corporation Concerning One Multiplier Options**

September 9, 2022.

**I. INTRODUCTION**

On July 18, 2022, the Options Clearing Corporation (“OCC”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change SR-OCC-2022-009 pursuant to Section 19(b) of the Securities Exchange Act of 1934 (“Exchange Act”)<sup>1</sup> and Rule 19b-4<sup>2</sup> thereunder. The proposed rule change would amend provisions of OCC Rules to accommodate the issuance, clearance, and settlement of index options and flexibly-structured index options with an index multiplier of one.<sup>3</sup> The proposed rule change was published for public comment in the Federal Register on August 1, 2022.<sup>4</sup> On August 10, 2022, OCC filed Partial Amendment No. 1 to the proposed rule change.<sup>5</sup> The Commission has received no comments regarding the proposed rule change. The Commission is publishing this notice to

<sup>5</sup> In Partial Amendment No. 1, OCC updated the description of Information Memo #50046 contained in Footnote 6 of SR-OCC-2022-009 to align with the proposed language for OCC Rule 1804 contained in Exhibit 5 to SR-OCC-2022-009 that an index or flexibly-structured index option with a multiplier of one will have an automatic exercise threshold amount of \$0.01 per contract. Partial Amendment No. 1 included a similar update to Item 4 of SR-OCC-2022-009.

## **II. BACKGROUND<sup>7</sup>**

In 2021, the Commission approved a rule change proposed by the Cboe Exchange, Inc. (“Cboe”) providing for the listing of non-FLEX options with a multiplier of one (“micro-options”).<sup>8</sup> In September 2021, the Commission approved a rule change proposed by Cboe to accommodate the listing and trading of a new product, namely flexible exchange (“FLEX”) index options with an index multiplier of one (“Micro FLEX Index Options”).<sup>9</sup> Micro FLEX Index Options differ from other FLEX index options permitted under Cboe’s rules, which have a multiplier of 100. Now, OCC proposes to amend its rules related to the automatic exercise of index options and flexibly-structured index options with an index multiplier of one (collectively “One Multiplier Options”).

Currently, OCC’s rules provide for the automatic exercise of index options and flexibly-structured index options with a settlement value of \$1 or more without regard to the size of the index multiplier.<sup>10</sup> OCC states that, with the proliferation of options with multipliers less than 100, OCC is proposing to modify its Rules to explicitly allow for a corresponding reduction in the automatic exercise threshold used for expiration processing for these products.<sup>11</sup>

A. Current Rule 1804 Generally Does Not Account for Index Multipliers

OCC proposes to amend Rule 1804, which provides expiration exercise procedures for cash-settled options, to accommodate the automatic exercise of One Multiplier Options by adding a new threshold for automatic exercise. Currently, Rule 1804(b) allows for the automatic exercise of expiring cash-settled index options with standard expiration dates that are listed in a Clearing Member's Expiration Exercise Report if the option's expiration date is in-the-money by \$1.00 or more per contract.<sup>12</sup> Under the current Rule 1804(c), with the exception of OTC index options, which have an automatic exercise threshold of one cent, the same \$1.00 automatic exercise threshold exists for expiring flexibly-structured index options, quarterly index options, monthly index options, weekly index options, and short-term index options that are listed in a Clearing Member's Expiration Exercise Report.<sup>13</sup> Generally, Rule 1804, which is silent regarding the size of index multipliers, does not set automatic exercise thresholds below one dollar, except for OTC index options.

B. Amending Expiration Exercise Procedures for One Multiplier Options

OCC's proposed amendments to Rule 1804(b) and (c) would facilitate automatic exercise procedures for One Multiplier Options. OCC proposes to add a new threshold that would trigger automatic exercise of One Multiplier Options. Specifically, proposed Rule 1804(b) would explicitly state that for cash-settled options *with a multiplier of one*, each option contract that has an exercise settlement amount of \$0.01 or more per contract would be automatically exercised. Proposed Rule 1804(c) would maintain the current treatment of all other cash-settled options *with a multiplier of other than one*, by explicitly stating that each such option contract that has an

<sup>12</sup> OCC states that options are exercised under Rule 1804(b) as an operational convenience for its Clearing Members, but that Clearing Members have the ability to prevent the exercise of an in-the-money option that would otherwise be deemed exercised by submitting contrary exercise instructions. Notice of Filing, 87 FR at 47017.

<sup>13</sup> By product design, the flexibly-structured options covered by Rule 1804(c) are automatically exercised if they are in-the-money by the exercise threshold amount, and Clearing Members are not permitted to submit instructions to prevent such exercise.

exercise settlement amount of \$1.00 or more per contract would be automatically exercised.

OCC's proposed amendments would apply to cash-settled index options with standard expiration dates under Rule 1804(b); and to flexibly-structured index options, quarterly index options, monthly index options, weekly index options, and short-term index options under Rule 1804(c). OCC's proposed changes would also ensure that the one-cent automatic exercise threshold for OTC index options would remain the same.

OCC believes the amendments to Rule 1804 are necessary to accommodate the decrease in product size as the result of the smaller multiplier.<sup>14</sup> One Multiplier Options are 1/100th the size of most index options or index flex options on the same underlying index. OCC explained that, due to the difference in product size as the result of the smaller multiplier, Cboe requested a proportionate reduction to the exercise threshold amount as established in OCC's Rule 1804(b) and (c).<sup>15</sup>

### **III. DISCUSSION AND COMMISSION FINDINGS**

Section 19(b)(2)(C) of the Exchange Act directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Exchange Act and the rules and regulations thereunder applicable to such organization.<sup>16</sup> After carefully considering the proposed rule change, the Commission finds that the proposal is consistent with the requirements of the Exchange Act and the rules and regulations thereunder applicable to OCC. More specifically, the Commission finds that the proposal is consistent with Section 17A(b)(3)(F) of the Exchange Act,<sup>17</sup> as described in detail below.

<sup>15</sup> Id.

<sup>16</sup> 15 U.S.C. 78s(b)(2)(C).

<sup>17</sup> 15 U.S.C. 78q-1(b)(3)(F).

Section 17A(b)(3)(F) of the Exchange Act requires, among other things, that a clearing agency's rules are designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions.<sup>18</sup> Based on its review of the record, and for the reasons described below, the Commission believes that the proposed rule change is consistent with facilitating the prompt and accurate clearance and settlement of securities transactions and derivative agreements, contracts, and transactions.

The Commission believes that, in amending Rule 1804(b) and (c) to introduce a \$0.01 automatic exercise threshold for One Multiplier Options, the proposed rule aligns OCC's expiration processing of One Multiplier Options with already-existing procedures applicable to options with multipliers other than one, including multipliers of 100. The introduction of an automatic exercise threshold consistent with the size of One Multiplier Options would extend the operational convenience provided for other options to One Multiplier Options without removing a Clearing Member's ability to prevent the exercise of an in-the-money option that would otherwise be deemed exercised by submitting contrary exercise instructions. The Commission believes that the introduction of such processes would reduce the likelihood that a Clearing Member would lose the value of a contract that is in-the-money due to the failure to exercise such a contract. Further, the Commission believes that the reduction of such likelihood of loss would, in turn, facilitate the prompt and accurate clearance and settlement of securities transactions.

The Commission believes, therefore, that the proposal is consistent with the requirements of Section 17A(b)(3)(F) of the Exchange Act.<sup>19</sup>

**V. ACCELERATED APPROVAL OF PROPOSED RULE CHANGE, AS MODIFIED BY PARTIAL AMENDMENT NO. 1**

The Commission finds good cause, pursuant to Section 19(b)(2) of the Exchange Act,<sup>20</sup> to approve the proposed rule change prior to the 30th day after the date of publication of notice of the filing of Partial Amendment No. 1 in the Federal Register. Partial Amendment No. 1 does not change the purpose of or basis for the proposed changes.

**VI. CONCLUSION**

On the basis of the foregoing, the Commission finds that the proposed rule change, as modified by Partial Amendment No. 1, is consistent with the requirements of the Exchange Act,
